PRESS RELEASE 23 March 2012

Pan-European prize-winning Relaxbirth® Birthing System launched at Obs-Gyne Exhibition & Congress 2012, Dubai

The Pan-European prize-winning Relaxbirth birthing system will be launched at Obs-Gyne Exhibition & Congress at Dubai World Trade Centre (DWTC) on 1-3 April 2012. The inventor of Relaxbirth, Ms. Eija Pessinen, and the CEO of Relaxbirth Ltd., Mr. Jukka-Pekka Luostarinen, will be present in this three day event to introduce and demonstrate the Relaxbirth innovation to Middle-Eastern audiences.

Relaxbirth is a unique innovation increasing wellbeing in childbirth. By providing multiple benefits for the mother, baby and professionals, Relaxbirth also offers many long-term benefits for the whole society.

For the women in labour, Relaxbirth offers numerous birthing positions suitable for different traditions and needs. For medical personnel, it acts as a workstation with improved ergonomics. From the maternity clinics' point of view, Relaxbirth helps improve customer satisfaction. The feedback from mothers has been very positive.

The Relaxbirth system consists of the birthing support device, method, training, services and supplies. Relaxbirth Ltd., a Finnish Medical Technology sector company, markets the Relaxbirth System internationally.

Relaxbirth was awarded the Best European Woman Innovation Title 2009-2010 (EUWIIN).
